

# NuSTONE

Silvered Barn Wood NuSTONE

## What Is NuSTONE...

NuSTONE is Creative Palettes Class "A" fire rated product made of a two part process which places a hard-coat resin on the surface and polyurethane on the backside. Our silicone molds deliver unparalleled photographic dimensional detail.

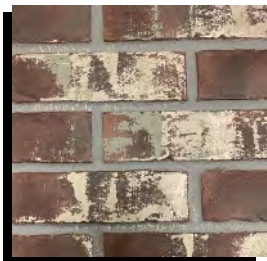

## Why Use NuSTONE...

Installs in minutes with construction adhesive on your existing wall material with no need for cement boards, heavy structure or mortar. Easy clean up, no wet saws or mortar required. Great for remodels. Hyper realistic look and feel. Faux finished to your specific requirements.

## Specifics Of NuSTONE...

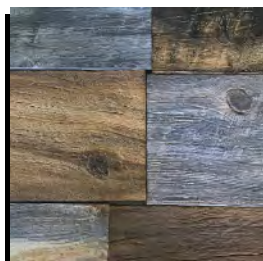

Class "A" Fire rated - Less than .5lbs per sq ft. - Panels/boards are cut with a circular saw, reciprocating saw, table or jig saw on-site by any General Contractor.
